

COMMON POLICY FOR FRANKLIN CENTRAL SUPERVISORY UNION
ST. ALBANS TOWN EDUCATIONAL CENTER,
ST. ALBANS CITY SCHOOL, FAIRFIELD CENTER SCHOOL,
BELLOWS FREE ACADEMY UNION HIGH SCHOOL DISTRICT #48,
AND NORTHWEST TECHNICAL CENTER

CODE: F 7
(Mandatory)

DRUG AND ALCOHOL ABUSE POLICY

It is the policy of Franklin Central Supervisory Union (FCSU) and its member school districts (the Districts) that no student shall knowingly possess, use, sell, give, or otherwise transmit or be under the influence of any illegal drug or alcohol, or misuse any substance, on any school property or at any school-sponsored activity away from or within the school. It is further the policy of the FCSU and the Districts to make appropriate referrals in case of substance abuse.

Definitions

Substance Abuse is the ingestion of drugs and/or alcohol in such a way that it interferes with a person's ability to perform physically, intellectually, emotionally, or socially.¹

Drug means any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, or any other controlled substance as defined by state or federal regulation or statute.²

1. ***Educational Program.*** The Principal shall work with appropriate staff members to develop and conduct an alcohol and drug abuse educational program on a sequential basis from early childhood through grade 12, as required by Vermont law.³ The program shall be consistent with the Vermont Alcohol and Drug Education Curriculum Plan.⁴ If the school district is a recipient of federal Safe and Drug-Free Schools and Communities Act⁵ funds, the Act will be considered in the development of the alcohol and drug abuse educational program.
2. ***Cooperative Agreements.***⁶ In dealing with substance abuse cases, every effort will be made to promote responsible decision-making by the student involved and other students who are aware of another student's use or abuse. The focus will be to encourage appropriate medical and/or psychological intervention by trained professionals. The Principal shall annually designate a member of the substance abuse team to be responsible for providing information to students and parents or guardians about outside agencies that provide substance abuse prevention services and to encourage the use of their services and programs when appropriate.

The FCSU and the Districts have established procedures for responding to students' needs as they pertain to drug and alcohol student issues. Students under the age of eighteen who have been referred or who refer themselves to the counselor may be seen individually for purposes of substance abuse screening and consultation. It will be the goal to encourage the student to involve his/her parents or guardians at the earliest point in time.

3. ***Referral and Consent.*** Parental consent will not be required for student participation in group programs conducted within the schools that are educational in nature and designed to impart information and/or assist students in improving their sense of self-esteem. Such groups may be conducted only by trained professionals contracted by the schools to perform such service or by trained school staff who have been approved by the school administration to conduct such

groups;⁷ nor is parental consent required for referral to an outside substance abuse treatment program when a student who is twelve years of age or older is suspected of substance dependency, verified to have that dependency by a physician, and gives his/her own consent for treatment.⁸

4. **Substance Abuse Team.** In each school, the Principal shall form a Substance Abuse Team that shall screen students who refer themselves and students who are referred by staff for suspected drug and/or alcohol use and/or abuse problems. The team will determine the need for further screening, education, counseling, or referral for treatment in each case referred to it.⁹ In addition, the Principal shall establish procedures for administering emergency first aid related to alcohol and drug abuse for the team to follow.¹⁰
5. **Staff Training.** The Principal will work with appropriate staff to provide training necessary to ensure that teachers and health and guidance personnel are prepared to competently teach or provide other services required in the school's alcohol and drug abuse prevention education program. Training will be designed to meet the requirements of State Board Rule.¹¹ The training will include a component explaining procedures that require immediate notification of the school administration by school staff of any violation of law, including the illegal possession or distribution of drugs or alcohol.¹²
6. **Community Involvement.** The Principal will work with school staff and community members to design and implement a program to inform the community about substance abuse issues and the programs and supports provided by the school to educate students about the dangers of alcohol and drug abuse and to assist students who are abusing alcohol or drugs.¹³
7. **Annual Report.** In a standard format provided by the Vermont Department of Education, the Principal/designee will submit an annual report to the Commissioner of Education describing substance abuse education programs and their effectiveness.¹⁴
8. **Notification.** The Principal shall ensure that parents and students are given copies of the standards of conduct and disciplinary sanctions contained in the procedures related to this policy and that they are notified that compliance with the standards of conduct is mandatory. Notice to students will at a minimum be provided through inclusion of these standards and sanctions in the student handbook distributed to all students at the beginning of each school year or when a student enrolls in the school.¹⁵
